UX Designer and Frontend Developer New Media Graduate with hands-on experience in UX/UI implementation, interactive systems, and prototyping. Bridges design vision with technical execution for web and software applications.

EDUCATION **University of North Carolina at Asheville** | Asheville, NC Bachelor of Arts in New Media (Interactive Design) | Graduated July 2026 | GPA 3.9+

TECHNICAL PROJECTS

Mixdown: Release Tracker | React, TypeScript, Vite, CSS, Figma, Claude Code | Nov 2026

- Designed and developed solo, in one week, a responsive single-page React application for independent musicians, from Excalidraw wireframe to production deployment on Netlify
- Set up the React, Vite, TypeScript, and ESLint project; modeled data with TypeScript types and built reusable components with state management, full CRUD, and localStorage persistence
- Used Claude Code to convert the working UI into an editable Figma design system of design tokens and components, then styled it and implemented the tokens in CSS without changing app logic
- Built accessible UI (a11y) with semantic HTML, labeled form controls, keyboard navigation, visible focus states, and status shown by text as well as color

Ardour UX Revision - Interaction Design Case Study | Penpot | Aug 2026

- Identified four high-friction interactions in the open-source DAW Ardour: track creation, plugin insertion, region editing, and plugin pin connections
- Designed scoped alternatives in Penpot rather than a full redesign, including a lightweight workflow for quick one-off track creation
- Presented proposals on the Ardour community forum and discussed trade-offs with core developers and users

Endel Boost - UX Feature Addition Project | Figma, Affinity Designer | Jul 2025 – Aug 2025

- Designed the User Experience flow for the existing functional audio app Endel, designing a prototype for a robust fitness audio system with specific features and usability considerations
- Conducted 3 interviews with potential users to direct the vision and goals of the feature addition
- Demonstrated ability to design within existing brand design guidelines

PROFESSIONAL EXPERIENCE

Design Assistant - UNC Asheville New Media Department | Nov 2023 - May 2026

- Managed design pipelines for 20+ departmental promotional assets, ensuring brand and technical compliance
- Executed production-ready design work translating abstract ideas into promotion-ready deliverables
- Optimized design workflows cutting turnaround time by ~30% without quality loss

Course Ambassador - UNC Asheville Mass Communications Department | Apr 2025 - May 2026

- Provided technical and creative assistance to video-production students
- Collaborated with professor to continually improve the course

Video Editing Intern - Old Buncombe County Genealogical Society | Dec 2024 – Oct 2025

- Edited and published 6+ educational genealogy videos for YouTube distribution
- Tracked viewership metrics to inform content strategy and planning
- Assisted in establishing the organization's YouTube channel from initial setup through ongoing content output.

Freelance - Independent Creative Services Self-Employed | Feb 2022 - Present

- Translated client requirements into functional digital products and design systems
- Designed numerous logos, marketing assets, and brand materials for independent clients
- Delivered projects on agreed timelines with revision cycles

SKILLS

- **Languages**: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python
- **Frameworks & Libraries**: React, Vite, Tone.js
- **Frontend**: Responsive Design, Web Accessibility (a11y), Semantic HTML, Component-Based Architecture, State Management, Design Tokens, Design Systems, Single-Page Applications (SPA)
- **Tools**: Claude Code (AI-Assisted Development), Git, GitHub, Netlify, ESLint, VS Code, Zed
- **UI/UX Design**: Figma, Penpot, Excalidraw, Illustrator, Photoshop, Wireframing, Prototyping, User Interviews, Usability
- **Audio & 3D**: Reaper, Ardour, Sound Design, Synthesis, Blender, Unreal Engine 5
- **Methodologies**: Design Thinking, User-Centered Design, Iterative Design
